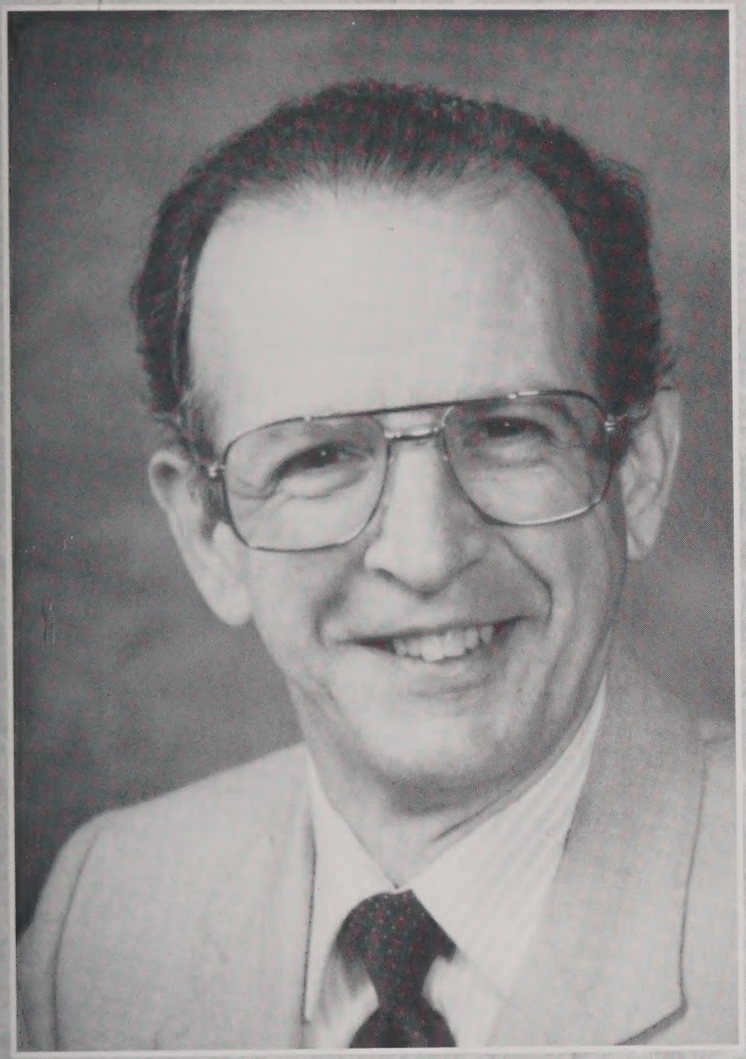
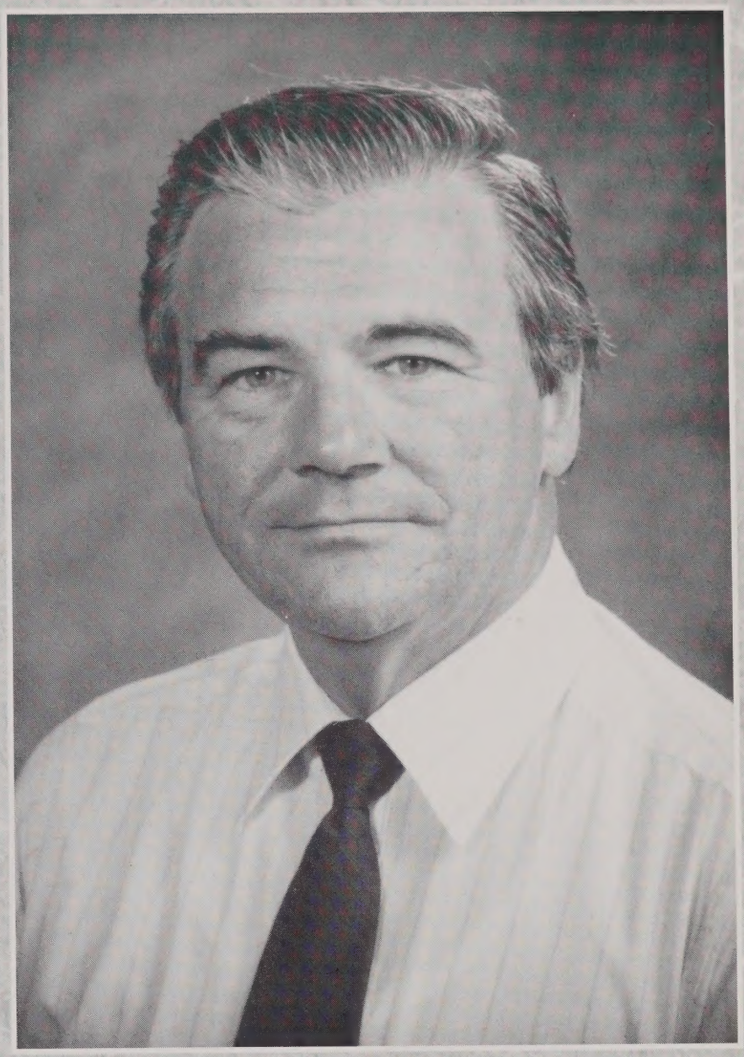
Dedication



Mr. Don Smith



Mr. Paul Viau

Through the years, the two of you have contributed time, spirit, and enthusiasm to our shool. Thank you everthing you have done for the school. Good luck in your retirement years and we'll never forget you.

Thank you for all you have done.
Class of 1998

Monty Tech

"Odyssey" is a Greek word which means a long and wandering journey. As you begin the journey into the twenty-first century, you will encounter many challenges: and while meeting these challenges, you must recognize certain values that have not changed with time....a well-conditioned mind and body, good work habits, sense of humor, self-respect and integrity. These are the values that have been instilled in you while at Monty Tech and hopefully, will carry you through life.

It is important that you apply the knowledge that you received, not only in having a successful life, but also in assisting those who may need your service. The knowledge obtained at Monty Tech will stand you in good service throughout your life.

Come back and visit us and become part of Monty Tech. Help make Monty Tech an even better school for future students.

The best of luck to each and every one of you,
Mr. Stratos G. Dukakis,
Superintendent-Director

Believe in yourself and your abilities. Carry all of your achievements with you. Couple a positive, caring attitude for your work with the many practical skills you have acquired here at Monty Tech and you will be on your way to success. The other ingredient needed is a positive, caring attitude toward other people you will encounter in all phases of your life. Remember that common sense sprinkled with a good sense of humor will often help to keep things running well.

Please listen to the advice of parents, grandparents, and guardians. When things get rough, understand that you will become stronger because of the experience.

Before you leave Monty Tech this year, please take a moment to thank teachers and other staff members who have taken the time to share much with you.

Expect great things for yourself as we all do for you. Keep in touch with us. You are welcome here!

Best Wishes to the class of 1998!

Spend you're life working without pause. Never stepping from the line or enjoying your time. If immortality were part of your life, you'd never stop working. Funny things happen when you pay close attention. One thousand shirts you own all looking the same. If its a question of what to wear you'll never be phased. Groups of unthinking people wondering through life doing as asked without thought or mental strife somethings are better left unsaid. Political People are born and bred.
